

Out of Africa

Welcome to the Out of Africa Tour!

This tour is designed to help obtain the AFV Accomplishment "Under African Skies", see here <https://www.afva.net/accligibility.do> for details.

The tour kicks off in Sal Island, Cape Verde (GVAC). For those who maintain a connected log book the only connection to GVAC in the AFV schedule is from Lisbon, Portugal (LPPT), so please bear this in mind when planning your future flights.

All but one of the flights use the AFVA schedule so in a good number of cases you will not be flying direct between required cities. A total of 76 legs make up the tour from short hops to transcontinental long hauls.

As usual with AFV tours, the legs can be flown using any aircraft within the AFV fleet regardless of whether you have the ratings for it. All that is required is that the aircraft is suitable for the distance covered and that runways are long enough to accommodate.

Please ensure you have read NOTAM 49 before commencing.

Good Luck and Have Fun!
